## **Idaho State University – Agency Spotlight**

### **Public Safety**

The Public Safety Department at Idaho State University has installed over 700 indoor and outdoor cameras and over 250 card access points that are all fully integrated. This system allows our dispatchers to conduct “video patrols” of our three campuses located in Pocatello, Idaho Falls, and Meridian (Boise suburb). In the event of an active shooter, our dispatchers will be able to guide responding officers to the location of the shooter and to provide details as relates to the shooter’s physical description, weapon, and direction of travel. Dispatchers currently scan video when burglar alarms are activated for officer safety purposes.

Video can be monitored from the dispatch center, the mobile command vehicle, and from portable devices.
